

The Baltimore Camera Club Presents a Photography Seminar by Brenda Tharp – “The Art in Photography”

The Art in Photography – Seeing and Creating the Expressive Image

Photographers want to create images that have impact – whether it's to win awards, be remembered, or purely for the personal satisfaction of having created an artistic photograph. In this inspirational and information-packed one day seminar, Brenda will discuss the elements that can make a picture more expressive, and how to incorporate them in any image you are creating. Topics of this full day seminar will include:

Seeing the potential in a scene • Working with available light • Creating visual depth • Composing for impact • Capturing the moment • Incorporating motion • Beyond the postcard: apply artistic interpretations using in-camera & in-computer techniques • Managing workflow & digital files at home and on the road • Equipment essentials: what's in the bag and why.
